

# LETTER OF CERTIFICATION

## Dental Outreach

Jan 15, 2026

**To Whom It May Concern:**

VAW Global Health Alliances (**VAW Global**) is a global health and development organization committed to cultivating sustainable and equitable partnerships with local communities and professionals by supporting and strengthening access to essential health services. We work hand-in-hand with local leaders and initiatives to improve communities' access to medical, dental, and veterinary care, medications, nutrition, clean water, and health education.

This letter certifies that **Brooke Wilson** completed the VAW Global Health Alliances Internship Dental Outreach, which includes on-campus preparation, online training before departure, and 8 days of on-site work in **PERU** during **November 25 - December 2, 2025**. The program typically involves about **34 intern work and clinical hours**.

During the program, interns may, as part of their on-campus and online pre-departure training:

- Build connections, set goals, and prepare for effective teamwork abroad.
- Gain an understanding of global health, healthcare in LMICs, VAW Global's mission, and trip logistics.
- Train in biosafety, and develop practical clinical skills, including taking vital signs and basic pharmacology.
- Learn the basics of the host country's language, culture, and history, and build cultural sensitivity to adapt well and navigate cultural differences.

While on-site, interns may:

- Collaborate closely with local healthcare professionals to help implement primary dental clinics in **CUSCO, PERU**. Gain practical exposure to clinic operations in LMICs
- Assist in setting up and operating mobile dental clinics, including receiving training on equipment use, clinic management, and biosafety guidelines.
- Measure patients' vital signs and apply basic pharmacology skills under the guidance of local healthcare professionals.
- Shadow and assist local dentists during patient consultations across **three clinic days**, observing diagnosis and treatment practices firsthand.
- Participate in dental impressions and tooth waxing workshops, cultural sensitivity activities and introductory language practice to deepen understanding of the host culture and improve communication.
- Gain practical insights into local healthcare realities and long-term community partnerships, strengthening their understanding of global health contexts.

Should you require any additional information, please do not hesitate to contact us.

Sincerely,

A handwritten signature in black ink that reads "Mark Stanley".

**Mark Stanley**
